Dear Parent/Carer,

Re: Revision Sessions

Through feedback questionnaires and 1-2-1 conversations, Year 11 students have requested help with revision strategies and techniques to enable them to be prepared for the upcoming PPEs and summer examinations.

In light of this, and as part of the training day at the start of this term, staff received guidance on how to deliver and train students in effective revision strategies. We are now going to do a follow-up session with all students in Year 11 so they are also aware.

Your child will take part in a two-hour session on either Monday 13th January or Thursday 16th January in normal lesson time. As part of the training, students will work through an information booklet and practice the techniques. They will also receive a study set including highlighters, revision flash cards and post-it notes to get them started.

If you have any further questions about these sessions, please contact us for more information.

Yours sincerely,

Mr B Knight
Vice Principal
